Wandoan Seed Collecting Workshop

Friday 19th Feb 2010
8.30am – 10.30am

We will cover:

- Plant identification
- Collecting the best quality seed
 - Seed collection techniques
 - Seed preparation and storage techniques
- Results from two hand seeded rehabilitation sites at Anglo Coal Mine & Callide Management.

This workshop will share with participants the experiences of Callide Valley Landcare Softwood Scrub Project. The CV Landcare Softwood Scrub Project wants to improve the survival of softwood scrub by advancing local seed collection and storage so the seed can be used in rehabilitation projects.

Interested parties wanting to know more about how to collect quality seed, how to best store this seed and how to use seed to rehabilitate sites will benefit from this workshop.

Presenter: Jane Gray

(Jane is accredited through Florabank)

Where: Bushlander Motel (17 Henderson Rd Wandoan)

RSVP: by the 16th Feb 2010

Morning tea provided
